

# Chukwuebuka Okoye

## Frontend Developer

+234 814 830 4949   ifennawisdom@gmail.com   Lagos, Nigeria

### SUMMARY

Frontend Developer skilled in creating efficient, user-centric applications. Passionate and advancing innovative digital solutions for business services, with a track record of improving processes.

### EXPERIENCE

#### React Native Mobile Developer

Lavorh Ltd.   08/2024 - Present

- Identified and resolved UI inconsistencies across the application, establishing a standardized component library that reduced future discrepancies by 80%.
- Identified and fixed bugs across the application resulting to 65% reduction in functional and regression bugs.
- Mentored junior developers, leading to a 40% decrease in project errors and bolstered the team's development skills consistently.
- Developed a state-of-the-art user authentication module, increasing user satisfaction scores by 18% within the first quarter of its deployment.
- Collaborated with cross-functional teams to streamline deployment processes, reducing deployment time by 30% and enhancing release reliability.

#### Frontend Web Developer

Coave   12/2022 - 06/2024

- Leveraged Reactjs to build intuitive user interfaces that increased application performance by 25%, thereby contributing to a more dynamic and satisfying user experience.
- Built modular, functional components with React Hooks reducing redundancy, enforcing code consistency, and encouraging best practices across the team.
- Championed an API-first approach across the development team, enhancing application interoperability and reducing duplication by 30%.
- Migration of the application code base from JavaScript to Typescript, enhancing type safety and reducing runtime errors by 40%.
- Collaborated with UI/UX team to iterate on design prototypes and bring them to life, ensuring technical feasibility and enhancing user satisfaction by 40%.

#### Frontend Developer

Credence   03/2020 - 10/2022

- Collaborated on designing scalable front-end interfaces using React, enhancing user engagement and satisfaction scores by 12%.
- Contributed to the code base by implementing automated end-to-end tests with Cypress, which decreased regression bugs by 30%, ensuring higher product stability.
- Crafted responsive designs, ensuring compliance with web accessibility standards and improving the end-user experience.
- Engineered a comprehensive component refactor to maximize reusability and separation of concerns, cutting development time for new features by an estimated 25% and simplifying long-term maintenance.

### KEY ACHIEVEMENTS

- Refactored Codebase**  
Refactored code base from JavaScript to Typescript, enhancing type safety and reducing runtime errors by 40%.
- Refactored Authentication Flow**  
Boosted data retrieval speed by 20%, improving overall application performance and enhancing client satisfaction measurably.
- Led Front-End Interface Redesign**  
Improved user engagement by 12% through the application of modern design principles and user-centric interface innovations.

### SKILLS

#### Languages

JavaScript(ES6+)   Typescript   HTML

#### CSS3

#### Frameworks & Libraries

React   Nextjs   React Native   Expo

Redux   Bootstrap   Material Tailwind

TailwindCss   React Query   Axios

#### Tools

Postman   Github   Cypress   Git

#### Figma

### EDUCATION

#### B.A History and International Studies

University Of Nigeria Nsukka

01/2015 - 01/2019   Enugu, Nigeria
